

Dr. Ashwin Anil Deshmukh,
Assistant Professor, Dept. of Orthopedics,
Dr. D. Y. Patil Medical College,
Pune, India - 411018.

I started my medical education in 2003 in Dr. D. Y. Patil Medical College and completed my medical school in the year 2008 and internship in 2009. After internship I developed interest in Orthopaedics and joined my Masters in Orthopaedics in 2010 in DPU Pune, India and completed in the year 2013, research undertaken for doctoral thesis was on “*Comparative Study Of Surgical Modalities Of Tibial Plateau Fractures A Prospective & Retrospective Cohort*”.

I have always been involved in sports like cricket, badminton & table tennis which has led me to develop a keen interest in injuries related to sports, thus making me believe that it was quintessential for me to train myself in arthroscopic procedures to be able to provide remedies for such conditions. This made me undergo Fellowship in Arthroscopy from March 2014 under Dr. Umesh Jadhav, Shoulder and Knee Specialist in Lokmanya Hospital, Nigdi, Pune, India.

Currently I am working as Assistant Professor in the department of Orthopaedics from July 2013 to till date. As a faculty in a teaching institute we get variety of ligament as well as soft tissue injuries, I have performed around 110 knee arthroscopic surgeries.

I am a registered member of **INDIAN ARTHROSCOPIC SOCIETY** and have three publications, out of which two are in national journals and one in international journal.
